SMART MANUFACTURING

PROCESS EXCELLENCE SERIES

The Operational Excellence Series includes 4 plant tours hosted by some of our 2019 Process Excellence Manufacturing Excellence Awards nominees. This series is designed to give you exposure to companies excelling in Process Excellence as a means toward profitability and competitiveness.

- January 16-** Plant Tour at Environmental Recovery Corporation in Lancaster
- April 8-** Plant Tour at RG Group in York
- May 14-** Plant Tour at Taylor Communications in York
- June 11-** Plant Tour at AquaPhoenix Scientific in Hanover

Participants MUST be manufacturers

SMART MANUFACTURING

CONFERENCE

This conference is designed to expose you to the most recent developments in SMART Manufacturing. Recognizing the value that manufacturers can offer each other, we identify experts who have had success with specific technology or workforce related topics. This is an opportunity to learn from your peers who are doing it in the real world.

March 19- at The Gettysburg Hotel

What's So Cool About Manufacturing?

Student Video Contest

What's So Cool About Manufacturing is a student state wide video contest that educates middle school students about manufacturing careers.

Many consider manufacturing careers to be dark, dirty, and dangerous which keeps students from entering the workforce. This contest was created to end the stigma and educate middle school students about the high tech and numerous opportunities manufacturing careers can offer!

Two Ways to Get Involved: Contact Nora Burgos at nora@mantec.org for info!

Be a Sponsor- This program is FREE for schools. Help us cover the cost by sponsoring the event.

Or

Host a School- Teams of four to six middle schoolers will create a video about your manufacturing business.

Synergy

Together everyone achieves more.

Stevens & Lee/Griffin is an industry-focused platform of professionals working together to help clients in a wide range of industries to meet their challenges and capitalize on opportunities.

Among our more than 200 legal, investment banking, tax, accounting, consulting and government affairs professionals are former CEOs and other senior executives from numerous industries.

This multidisciplinary focus and the diverse occupational and educational backgrounds of our professionals allows us to better provide management-friendly advice and creative solutions to the complex challenges businesses face today.

To learn more about how the Stevens & Lee/Griffin team can assist you, call us at 800.510.0274 or visit www.stevensleegriffin.com.

Stevens & Lee is among the 200 largest law firms in the nation and Griffin is among the largest investment banks in the Mid-Atlantic region headquartered outside of New York City. Both firms serve local, regional and national clients from their 19 office locations, including their Reading headquarters.

Quality consulting designed to lead.

LQT, Inc. provides quality consulting services to organizations in need of improving their processes and employee competencies.

LUNCH KEYNOTE

“PIONEERING A NEW FRONTIER: THE PA HEMP INDUSTRY”

Steve Groff
Founding Chairman
Groff North America

Steve, the son of a fourth-generation farm family, was born and raised in Lancaster County. After graduating Albright College and University of Virginia with his M.D., he completed residency training in orthopedic surgery at Penn State Hershey. He had a twenty-year clinical practice in York County. He was instrumental in the development of the area’s largest musculoskeletal health organization, OSS, along with its ambulatory surgical center and Hospital Health system. Steve served as the president for three terms. After a nearly tragic bicycle accident, he and his family focused on the development of Wyndridge Farm, a restaurant, wedding and corporate event venue, and beverage manufacturer in York County. Wyndridge has achieved a strong brand recognition in four years.

The US Farm Bill of 2018 legalized the ability for farmers to grow agricultural hemp. Steve recognized this significant change and has assembled a management team and outside professionals to take advantage of this opportunity.

Manufacturing Matters

Coming in 2020!

Join us for breakfast and burning issues

This series will highlight local manufacturers who have successfully navigated a challenge that keeps manufacturers up at night. The sessions will be co-presented with the company that helped them with the process.

More details will be released soon!

January 2020- Lancaster

February 2020- Hanover

March 2020- Harrisburg

April 2020- York

May 2020- Lebanon

June 2020- Chambersburg

PROCESS EXCELLENCE GRADUATES

LEAN CERTIFICATION

Learning the LEAN Manufacturing concepts and application methods is the start of a life-long journey. LEAN Certification provides the participants with a well-planned, structured approach to becoming a LEAN leader.

Aaron Gallo - Ecore International

Amanda Simms - AquaPhoenix Scientific

Amy Gladfelter - ACCO Brands

Bryan Roper - Manitowoc Crane Group

Daniel Patches - Electron Energy Corporation

Dylan Ehrlinger - Church & Dwight Co

Edward Flowers - Ecore International

Henry Cruz - Pennex Aluminum Company

Jeremy Molison - Pennex Aluminum Company

Joe Martin - MANTEC

Justin Shaffer - Zeigler Bros., Inc.

Keith Sheeley - Manitowoc Crane Group

MANUFACTURING AWARDS

A PROGRAM OF:

EXCELLENCE IN PROCESS EXCELLENCE

In today's competitive global marketplace, operational excellence is not an option; it is the only way to succeed. Manufacturing companies must make the ongoing quest for excellence a top priority if they hope to remain viable and continue to meet their productivity and profitability objectives. Specific initiatives may include LEAN, Six Sigma and Quality certifications, such as ISO.

AquaPhoenix Scientific located in Hanover
D.F. Stauffer Biscuit Co. Inc located in York
Environmental Recovery Corporation located in Lancaster
Fenner Precision Polymers located in Manheim
RG Group located in located in York

EXCELLENCE IN ADVANCED MANUFACTURING TECHNOLOGY

Accelerating opportunities to leverage and adopt manufacturing technology are the key to long-term business growth and productivity required to grow and compete in the global marketplace. Specific initiatives may include strategies and implementation for front office productivity, design services and prototyping, manufacturing planning and production, supply chain logistics and IT infrastructure.

Astro Machine Works located in Ephrata
Henry Molded located in Lebanon
JLS Automation located in York
Weaver Industries located in Denver
Zeigler Brothers located in Gardners

EXCELLENCE IN STRATEGIC GROWTH

Manufacturers of all types and sizes in Pennsylvania are facing an increasingly complex marketplace. Crafting and implementing strategies that sustain growth into the future requires a company to grow their top line. Specific initiatives may include strategies for new customers and new markets, develop new products, and look at ways to successfully position a company and its products to grow sales and market share.

Direct Wire & Cable Inc. located in Denver
Henry H. Ross and Son located in Lititz
Joseph Machine located in Dillsburg
NTM, Inc. located in Newport
Pacer Pumps located in Lancaster

EXCELLENCE IN CHANGE MANAGEMENT

One of the most effective ways of improving your manufacturing organization's performance is by making workforce development a top priority. Specific initiatives may include targeted strategies to increase worker proficiency, typically via training programs and activities, increases employee engagement, improved organizational culture, and meeting stringent safety regulations.

Crescent Industries located in New Freedom
Guardian CSC located in York
Hamilton Precision Metals located in Lancaster
Machined Products Company located in Lancaster
York Precision Machine & Hydraulics located in York

“The LiveWire and York Plant Expansion”

John Mocny
General Manager
Harley-Davidson Company

John Mocny is the General Manager of Harley-Davidson’s York Vehicle Operations, where he oversees the production of Touring, CVO™, Softail®, and Trike motorcycles. He is responsible for overall plant safety, quality, delivery, cost, people, and sustainability.

Prior to joining Harley-Davidson, John was Corporate Director of Manufacturing at Spartan Motors, a producer of Fire Trucks and Delivery Vehicles. John was also the CEO at Bandit Industries and the Senior Director of Manufacturing for the Honeywell Aerospace Wheel and Brake division. He also held roles at Caterpillar Inc., where he led a number of plants through the lean culture journey. John started his career at General Motors, eventually leading the transformation of their Lansing assembly plant and the implementation of their operating system.

John has a master of science in engineering management from Rensselaer Polytechnic Institute (New York) and a bachelor of science in mechanical engineering from Michigan State University.

This year, John and his wife Sopa celebrated 26 years of marriage. They have three children.

Established as an assembly facility in 1973, Harley-Davidson Vehicle Operations in York, PA assembles the Softail®, Touring, CVO™ and Trike models. They also perform a variety of manufacturing operations – making parts like frames, fuel tanks, and fenders. On May 8, Harley-Davidson made history when the 5 millionth motorcycle rolled off the assembly line in York, Pennsylvania, and onto the road, ready to carry its new rider to limitless opportunities for adventure and discovery. York is growing, and the majority of Harley-Davidson motorcycles sold world-wide roll off American assembly lines, including every Harley-Davidson motorcycle sold in the United States.
