

MANUFACTURING U: APPLIED ENGINEERING

July 20-31, 2026 (M-F) 9 am - 4 pm
Millersville University

FREE!

Earn \$500 While You Learn How to use STEM skills in manufacturing!

Into engineering? Love to build, tinker, or figure out how things work? Join us for two weeks doing hands-on projects, meeting cool people, and getting a real feel for what a career in engineering could look like. Here's what you'll do:

- Build a working steam engine—yes, really—from scratch.
- Tour local manufacturing companies and see high-tech equipment in action.
- Boost your problem-solving, teamwork, and communication skills (super helpful for college and life).
- Take the Advanced Insights profile to learn more about your strengths and what motivates you.
- Get the chance to earn a nationally recognized industry credential (Certified Manufacturing Associate from SME).
- Add an awesome experience to your college and job applications.

If you like hands-on learning and want to explore where applied engineering could take you, this is for you.

Registration closes July 8 | [Apply here!](#)

Questions? Email: cindi@mantec.org

Students must attend 100% of classes and participate in all activities to earn \$500.

This program is funded in part by the Pennsylvania Department of Community & Economic Development's Manufacturing Training to Career Grant program."
